

## Stay Informed with the Syringa Mobile App

With the new Syringa mobile app, you can receive push notifications in real-time about your network, easily manage your support cases, and access customer support, all from the convenience of your mobile phone or tablet.

### With the Syringa Mobile App you can:

- Stay informed about the health of your network in real-time with push notifications.
- Receive system-generated trouble tickets as issues arise.
- Automatically receive notifications as updates occur.
- Monitor ticket status from anywhere, anytime.
- Communicate directly with customer support.
- Add notes to cases as needed.
- Effortlessly manage your network.
- Access customer support 24/7/365.

Our Network, Your Success.
